SYNTHETIC INCOMPLETE MEASUREMENT EXCERPT

This is an artificial boundary-test fixture, not a published paper.

A training run lasted 4 hours.
Average draw was recorded as 180, but its unit was lost.
A separate meter recorded 0.72 kWh.
It is unknown whether the meter covers IT equipment or the whole facility.
The PUE and electricity carbon intensity are not available.
No supplementary material is supplied.

Do not interpret missing metadata as a measured zero.
